Lake & River Hotel

## SUSTAINABLE MANAGEMENT POLICY

*At Correntoso Lake & River Hotel, we recognize that our operation plays a significant role in social and economic development.*

*Motivated by the strong belief that tourism can contribute to sustainable development, we gather our efforts to ensure a respectful experience within the wonderful environment that surrounds us.*

*In this regard, we commit to:*

- Comply with environmental regulations, principles of sustainable tourism and all applicable legal and voluntary requirements related to sustainable management.*
- Use water efficiently and encourage conservation and reuse practices among our guests and collaborators.*
- Implement measures to reduce our energy consumption and adopting operational practices that minimize energy waste.*
- Support the local economy by promoting products and services from the region and contracting local suppliers.*
- Adopt practices that minimize waste generation and promote reuse and recycling among our guests and collaborators.*
- Showcase the cultural and natural richness of the region, emphasizing the importance of its conservation.*
- Promote the use of sustainable transportation methods among our guests and collaborators.*
- Ensure the accessibility of our facilities so that everyone can make use of our areas.*
- Work continuously towards the improvement of sustainable management, involving both collaborators and guests.*
